## **Delayed Implementation of Embodied Carbon Requirements**

---

This bulletin advises of a delay in implementation of Embodied Carbon requirements in the VBBL.

The implementation of VBBL Division B [Section 10.4 Low Carbon Materials and Construction](#), approved by Council on May 17, 2022 and enacted by Council to come into effect on July 1, 2023, is delayed until October 1, 2023. Compliance with the requirements of this section of the by-law, and submittal of acceptable documentation demonstrating compliance, will be required for new building permit applications received on or after October 1, 2023.
