

DEVELOPMENT, BUILDINGS & LICENSING

All documents/drawings listed in this checklist are required to be included in your Building Permit application package unless otherwise noted.

To submit your Building Permit application online, visit vancouver.ca/building-development-support

If you do not have an online account, visit vancouver.ca/permits/apply to create one.

When submitting your application package:

1. Ensure that each required drawing/document is included in your application package.
2. Use vector format PDF (scanned paper drawings may not be accepted and may delay the approval of your permit). Staff will not accept scanned copies of drawings produced in CAD (computer-aided design).
3. Submit all drawings separately from other non-drawing documents, such as schedules, forms, and reports.
4. Submit landscape drawing separately from all other drawings.
5. Submit each complete document separately (for example, your drawings need to be one complete document file that you upload). Combining multiple or different document types will delay the processing of your application. Where file sizes are large (over 300mb) and drawings must be separated, each discipline must be uploaded as a separate file.

For more information on document submission standards, visit [Electronic permit applications](#) ¹

Fees are assessed when staff review the application for completeness and must be paid before detailed reviews can start.

This checklist pertains to **New Multi-Unit Residential Building** building permit applications. For other types of Building Permit applications visit Vancouver.ca/BuildingApplications

This checklist is not limited in its content. Upon review of each submitted application, additional documents or drawings not listed may be required to continue the review process.

Documents – required unless otherwise noted

Title	Details: Where to find document, instructions and conditions when required	Notes
Application Form	Development and / or Building Application Form ²	
BC Hydro Clearance Form	BC Hydro Clearance Form ³	
Building Code Analysis Report	Required when complex scope – staff will advise if needed. Always recommended.	
Building Permit Data Sheet	Building Permit Data Sheet ⁴	
Energy Compliance Documentation	Use the following tools and checklists located here: Energy Requirements, Forms, And Checklists For All Buildings ⁵	
Green Building Policy for Rezoning Checklist & compliance documentation	Required for all new Part 3 buildings. Use the checklist located here: Green Building Policy for Rezoning Checklist ⁶	
Geotechnical Report		
New Home Registration Form	Visit https://www.bchousing.org for more information.	
K1 - Restaurant or Kitchen Exhaust Systems	K1 - Restaurant or Kitchen Exhaust Systems ⁷ Required if Commercial Kitchen being added.	
Owner's Undertaking Letter	Schedule E-1- Owner's Undertaking Letter ⁸	
Site Disclosure Statement	Requirement of the Ministry of Environment for any soil disturbance. Refer to: https://www2.gov.bc.ca/gov/content/environment/air-land-water/site-remediation/identifying-sites-that-may-be-contaminated?keyword=Site&keyword=profile	

Letters of Assurance – required unless otherwise noted

Title	Details: Where to find document, instructions and conditions when required
Schedule A - Confirmation Of Commitment	Schedule A - Confirmation Of Commitment By Owner And Coordinating Registered Professional ⁹ Required if multiple Registered Professionals involved. Professional Seal and Signature required. See General Notes section for details.
Schedule B - Architectural	Schedule B - Architectural ¹⁰ Required if a Part 3 Building or requires Part 5 Building design. Professional Seal and Signature required. See General Notes section for details. See https://aibc.ca/protecting-the-public/does-your-project-need-an-architect/ for more information on when the services of an architect are required.
Schedule B - Electrical	Schedule B - Electrical ¹⁰ Required for Part 3 buildings. Refer to VBBL Div. C Subsection 2.2.7. ¹¹ Professional Seal and Signature required. See General Notes section for details.
Schedule B – Geotechnical	Schedule B - Geotechnical ¹⁰ Professional Seal and Signature required. See General Notes section for details.
Schedule B - Mechanical	Schedule B - Mechanical ¹⁰ Required for Part 3 buildings. Refer to VBBL Div. C Subsection 2.2.7. ¹¹ Professional Seal and Signature required. See General Notes section for details.
Schedule B - Plumbing	Schedule B - Plumbing ¹⁰ Required for Part 3 buildings. Refer to VBBL Div. C Subsection 2.2.7. ¹¹ Professional Seal and Signature required. See General Notes section for details.
Schedule B - Structural	Schedule B - Structural ¹⁰ Professional Seal and Signature required. See General Notes section for details. Designated Structural Engineer (Struct.Eng.) is required for design of Part 3 buildings. Refer to VBBL 2.2.1.2.(2), Division C ¹¹
Independent Review of Structural Designs	Checklist For Professional Structural Concept Review ¹² Required when structural drawings are provided. Refer to Bulletin 2001-007-BU Structural Design Drawings ¹³
Schedule D – Building Envelope	Schedule D - Building Envelope ¹⁴ Required for buildings requiring Part 5 design. Refer to VBBL Article 5.1.2.2. ¹¹ Professional Seal and Signature required. See General Notes section for details.

Drawings - required unless otherwise noted - Scale not less than 1/4" = 1'0" (1:50) unless otherwise noted.

Title	Details: Where to find document, instructions and conditions when required	Notes
Architectural Building Envelope Details	<ul style="list-style-type: none"> Construction details/cross section to indicate dimensions and details of proposed windows, walls, roofs, roof classification rating, balconies, decks, and typical interface between elements Details for penetrations through roof & exterior wall(s) Typical 3-D diagram should be provided where the method of assembling is critical, such as window corners, balcony rail attachments, and roof parapet 	Scale not less than 3" = 1'-0" (1:4)
Architectural Ceiling Plans	<ul style="list-style-type: none"> Indicate lighting fixtures, bulkheads Finish materials, including T-bar layout if applicable Include details of floor/ceiling penetrations 	
Architectural Cover Sheet	<ul style="list-style-type: none"> Project summary List of all design professionals' names and contact information Occupant load calculations 	
Architectural Cross Section	See Architectural Cross Sections requirements listed at the end of this checklist.	
Architectural Door Window Schedule, Wall and Floor Assembly Schedule	Fire-resistance rated assemblies shall be ULC/CSA listed, or tested by a recognized laboratory, or comply with Appendix D of the Appendix D of the VBBL ¹¹ , or if applicable, Table A9.10.3.1.A & A-9.10.3.1.B. Provide a copy of listed assemblies where applicable.	
Architectural Exterior Elevations	See Architectural Exterior Elevations requirements listed at the end of this checklist.	
Architectural Floor Plans	See Architectural Floor Plans requirements listed at the end of this checklist.	
Architectural Key Plan	Street address, floor numbers and tenant suite numbers. Suite numbers to be assigned in clockwise manner. Refer to Bulletin 2015-005-BU Addressing And Suite Numbering ¹⁵	Scale not less than 1/16" = 1'-0" (1:200)
Architectural Roof Plans	Indicate all roof top mechanical unit(s), locations, dimensions, setback from roof edges, and separation between units; anchorage, and differentiation of proposed/existing exhaust intake, skylights, accessible decks, guard rails, planters, landscape, and the standpipe.	
Building Grades Plan	Required for all new buildings and may be required for additions to existing buildings. Contact Streets Design - 604-873-7316.	
Electrical Plans		
Erosion and Sediment Control Drawings	Refer to: Bulletin 2002-002-EV: Erosion and sediment control, small lot developments (less than 1,000m²) ¹⁶ Bulletin 2002-003-EV: Erosion and sediment control, large lot developments (more than 1,000m²) ¹⁷	
Excavation/Shoring Details	Show property lines on shoring sections.	
Landscape Plans	Not required if application has an associated Development Permit. See Landscape Plans requirements listed at the end of this checklist.	
Mechanical Plans		
Plumbing Plans		
Site Plan	See Site Plan requirements listed at the end of this checklist.	Scale not less than 1/16" = 1'-0" (1:200)
Structural Plans		
Survey Plan	See Survey Plans requirements listed at the end of this checklist.	Scale not less than 1/16" = 1'-0" (1:200)

General Notes

Professional Seal and Signature Requirements:

Some files listed above require a professional seal and digital signature from the Association's endorsed signing authority. Please have your engineer, architect, qualified professional or other follow the instructions outlined by their Association's endorsed signing authority. For example, if the Association uses Notarius, please follow their instructions to digitally stamp and sign a document. Note that an image of a signature or initials does not constitute a digital signature.

For more information on how to add a digital signature, refer to the [Electronic Permit Applications](#)¹ page.

Drawing Details

Architectural Cross Sections requirements:

- Stair dimensions (width, rise, run, number of risers, headroom) height of guards, handrails and guardrails
- Wall, floor, roof and/or ceiling assemblies
- Fire resistance rating details of any required fire separations including test(s) references
- Fire stopping details for service penetrations of fire separations
- Ceiling height of crawl spaces and all habitable floors (floor to ceiling)
- Indicate construction of wall assemblies including insulation, vapour barriers, damp proofing, water proofing details and fire/sound separations where required
- Details of vaulted areas and adjacent attic spaces
- Bay window, window seat and window well details
- Crawl space details, showing ventilation requirements and access including size of access door
- Details of prefabricated fireplaces/chimneys (CSA approved)
- For attached carports/garages - detail of fire/smoke/gas barrier, door closures & weather stripping

Architectural Exterior Elevations requirements:

- Exterior cladding - finish details and material of exterior
- Dimensions of exterior guards and guard details where applicable
- Storey elevations related to building grades
- Indicate location and size of all windows, doors, window wells and skylights including safety glass where required (must match floor plans)
- Spatial separation percentage openings and fire-resistance ratings
- Exit exposure protection
- Required for principal and accessory buildings (where applicable) - all four elevations (front, rear and two sides)
- Floor levels elevations indicated as well as height above and below finished grade (basement heights) including below grade patio and window wells
- Elevation at the top of wall under the eaves is required to calculate exposing building face
- Existing and proposed grade elevations
- Eave overhang dimensions
- Elevation of proposed top of concrete around the perimeter of the building
- Porch dimensions and clear height to the underside of the ceiling
- Roof pitch and roofing material

Architectural Floor Plan requirements:

- Indicate all door, window and skylight locations and dimensions (may be provided in door and window schedule)
- Construction of wall assemblies and fire separation where applicable
- Indicate the location of all exit signs, emergency lighting and fire alarm devices where applicable

- Continued from previous page
- Indicate all floor dimensions (to be taken from the foundation walls and to the face of cladding of the building)
- Indicate all room uses/dimensions, including finished/unfinished areas
- Indicate stair details (rise/run, width, handrails, headroom, etc.)
- Indicate access for disabled persons where applicable
- Room finishes
- Indicate plumbing fixtures
- For flat roof/roof deck areas, show location of all plumbing vents
- Indicate the locations of all smoke and carbon monoxide alarms on all floors
- Indicate location and dimensions of any chimneys including vents, air conditioning units and/or condensing units
- Indicate location of all mechanical equipment

Landscape Plans requirements:

- All existing landscaping details shown on the legal survey transferred to the Landscape Plan(s)
- Provide a full Landscape Plan (including a plant list) illustrating both common and botanical names, sizes and quantity of all proposed plant material
- Proposed plant material, paved surfaces, other landscape elements and existing trees
- Details for planters, fences, trellis, or similar elements
- Existing site contours, landscaping and material to be removed, including size, common name, and placement
- All landscape elements and details, including new/existing surfaces to be retained, enclosures, site furniture and structures
- Location of sewer, water and gas lines

Site Plan requirements:

- Site dimensions and north arrow
- Property Lines
- Location and dimensions of all buildings on the site, including dimensions to the nearest property line from foundation wall or face of cladding
- Street names and location and width of any lanes
- Legal description (Lot number, Block number, District lot number, Plan number)
- Street address, floor numbers and tenant suite numbers
- Distance to nearest fire hydrant, travel distance to principal entrance and path of travel for firefighters
- Indicate limiting distance on each exposing building face
- Indicate location of proposed driveways from a street
- Indicate slab elevation and all floor elevations
- Existing and finished grades levels at each corner of the proposed building(s)
- Indicate the location of trees and tree barriers, refer to the [Protection of Trees By-law](#)¹⁸
- Any right-of-ways, registered easement or encroachments are to be indicated

Survey Plan requirements:

Survey Plan prepared by a BC Registered Land Surveyor, certified correct with digital seals and signatures, within 30 Days of application date ([VBBL 1.4.1.16, Division C](#)¹¹), and include the following:

- Site dimensions including north arrow
- Street address, street name(s) and location, as well as location and width of any lane(s)
- Legal description (Lot number, Block number, District lot number, Plan number)
- Property lines
- Indicate location and dimensions of all existing and proposed buildings
- Continued on next page
- Continued from previous page
- Indicate location of lead plugs, iron pins & show corner angles, datum
- The PID (The Property Identifier Number)
- Indicate front and rear yard depth at each corner of the house (especially important where site dimensions are irregular)
- Setbacks must be taken from the established building line (where applicable)
- Lane dedications, registered easements, encroachments & right-of-ways must be indicated on the surveys
- Indicate location of existing street crossings
- Indicate existing grades at the top and bottom of all retaining walls at 3 metre (10'-0") intervals
- Indicate existing grades at each of the four corners of the site
- Indicate existing grades at each corner of the proposed principal and any accessory building
